LIFE LONG DEMOCRAT

Thos. Hisgen is Out For Col. Roosevelt.

Was Once Candidate For Governor of Massachusetts and Prominent Leader.

Springfield, Mass., Aug. 24.—Thomas L. Hisgen, Independence League candidate for President in 1908, and the former Eastern competitor of the Standard Oil Company, today declared himself unequivocally for Colonel Roosevelt's candidacy for President.

Mr. Hisgen's declaration is of added importance, in that it was brought about by John D. Archibald's attack upon Colonel Roosevelt. Mr. Hisgen says that the venomous nature of the Archibald testimony yesterday and the apology with which it was prefaced have convinced him that Mr. Roosevelt's candidacy offers the only hope for legislation which is likely to prove effective in holding trusts and oppressive combinations of capital in restraint.

Mr. Hisgen has been a life-long Democrat except in 1907 and 1908. In the former year, as the Independence League candidate for Governor of Massachusetts, he finished second in the race, polling more votes than the regular Democratic nominee. This remarkable run made him the logical Presidential nominee of the Independence League the following year.

Beyond question Mr. Hisgen is the best known independent oil distributor in the United States. He is president of the Four Brothers' Independent Oil Company, which, for ten years, has successfully competed with the Standard Oil Company in the wholesale field between Albany, N. Y., and Boston. Mr. Hisgen's fight against the Standard Oil Trust is without parallel for length of duration and extent of territory involved. He is also a former president of the Independent Petroleum Marketers' Association of the United States.

Mr. Hisgen is one of a few men in a position to prove that Col. Roosevelt's decision to proceed against the Standard Oil Company antedated the Coker's nomination in 1904. Mr. Hisgen speaks from personal knowledge, backed by specific documentary evidence, and he proposes to take the stump to tell what he knows. Mr. Hisgen made public last night the following statement:

"I know that Theodore Roosevelt speaks the truth when he says that the real prosecution of the trust was begun before his nomination. As early as 1903 investigators from the national government had approached our firm and were then gathering evidence for the prosecution of the group that Senator Beveridge called the 'invisible government of the United States.'"

"In the oil fields and throughout the East, the government, before Theodore Roosevelt was nominated in 1904, was slowly gathering the evidence that was later used to free industry from the grip of Standard Oil. Why was this Standard Oil contribution made in secret? Why in cash instead of by check? Why did it not appear on the Standard Oil books? How unfortunate Archibald's only witness is dead."

"I was personally interviewed by men representing the government of the United States long before Archibald made the alleged contribution to the Republican fund. If he did contribute, he was helping about the most earnest enemy he has ever had in the presidency of the United States of America."

"I would have given a great deal to have been present in the Senate chamber when Archibald was testifying. Why was he not asked about the Standard Oil contributions that he has been making to Senators for the five years prior to it?"

"Why did they not force him to submit his private correspondence and tear the mask off the bunch of Standard Oil-paid Senators who have been defiling the fair name of the United States?"

"They brought him in to defend Pennock and attack Roosevelt, and thus establish clearly in the minds of everyone that it is the plunder-

band against the people, and Roosevelt represents the people."

"During the time that Archibald claims to have contributed, and even during the election 'warped' Roosevelt, absolutely certain of election, was assuring the independent oil interests through a splendid group of younger men with which he was surrounded that, as soon as elected, he would begin a business war against the man who in one year brought my own company's business to a point where it showed a loss so staggering that we offered it to any independent who would continue the war."

"When Roosevelt started after the Standard Oil Company the railroads no longer held back our shipments, we were given a square deal on our traffic, and thus we were able to bring our station back to a profitable basis."

"Had Roosevelt been defeated in 1904 we should have ceased our Springfield station, which has been the backbone of our fight."

"During the primaries I received many telegrams from the oil fields saying that the producers were praying for the nomination of Roosevelt. He is the only man who in recent years has fought the unyielding trusts relentlessly and successfully."

Rhea Will Not Contest.

Frankfort, Ky., Aug. 28.—It is probable that John Rhea of Logan county will not contest the re-nomination of Congressman R. Y. Thomas in the Third district. State Treasurer Thomas Rhea, his brother, stated that the contest is likely to be dropped. The district is very close. Said Mr. Rhea: "Party dissension would be hazardous; it would be to his advantage of neither candidate if he should win the contest and by any reason of the ill feeling stirred up the district be thrown to the Republicans. So, in the interest of party welfare, my brother has about made up his mind to let the contest drop."

NEW INDUSTRY AT OWENSBORO

Company Will Engage in Manufacturing Tobaccos And Cigars.

The Owensboro Inquirer says: The Indian Tobacco Manufacturing company has lodged for record in the county clerk's office articles incorporating its business. The capital stock is fixed at \$5,000, divided into 50 shares of \$100 each.

The incorporators are J. M. Vaughn, Henry S. Berry, John Pate, J. W. Daniel, Lee D. Ray, Walter Boye, Walter Atherton, William Sutherland, John H. Berry and C. M. Mullen. The corporation is to be conducted by a president, vice president, secretary, treasurer, general manager and a board of five directors. The officers have not all been elected as yet, but John H. Berry will be the president and Lee D. Ray, vice president. The board of directors elected will remain in office until the first Monday in July, 1913.

The location for the plant has not been definitely settled, but it is likely that it will be on East Second street. All the machinery, shafting, etc., has been purchased, and by the early part of this week work will begin installing it.

The management of the plant will be in the hands of John W. Daniel one of the stockholders who has had considerable experience in the handling of tobacco.

As soon as the location is finally settled and the machinery is installed, a small number of hands will be put to work and the capacity of the plant will be increased from time to time as the business justifies it.

The company will engage in the manufacturing of smoking and chewing tobacco, cigars, cigarettes, snuff, and any and all products into which tobacco may be manufactured from its natural state. They will also sell products manufactured at wholesale and retail in Kentucky, and in all other states in the United States where the corporation may find a market for its products and desire to do business.

The product of the factory will be made according to the invention of Mr. John H. Berry, who has succeeded in taking the sick out of a smoke or phlegm without destroying its nicotine properties.

BRYAN WILL DO MOST OF WORK

Wilson to Make But Few Speeches.

Ollie James, of Kentucky Will Also Lend Assistance to Democrats.

New York, August 25.—Gov. Woodrow Wilson spent today at the University Club, resting from a week of activity and preparing for a conference here tomorrow destined to have an important bearing on his presidential campaign.

With Vice Chairman McAdoo and members of the Campaign Committee, the Governor tomorrow will map out the actions of country where he will speak and a schedule of addresses will be agreed upon.

Present plans call for few speeches from the candidate himself but a larger number from William J. Bryan, Speaker Champ Clark, Representative Oscar W. Underwood, Governor Harmon of Ohio and Foss of Massachusetts, Senators Ollie James of Kentucky and scores of members of both Houses of Congress.

Through the Governor's idea at present is to make a number of speeches in the more important cities of the country, these speeches in no sense to be a swing around the circle or stumping tour, it is admitted that the exigencies of the campaign may necessitate changes in the program adopted.

Mr. Bryan has arranged his own itinerary, to begin about September 10. He will speak for the most part in the Middle West, beginning, it is said, in Nebraska and taking in Wisconsin, Minnesota, North and South Dakota, Washington, Oregon, Utah, Missouri, Illinois and Ohio. In these States, Mr. Bryan will make big stumping tours, but he also will devote as much time as possible to States east of the Mississippi River.

While Mr. Bryan is concentrating on the Northwest and the Middle West, Speaker Clark will tour the Southwest. After his three speeches in Maine next week, he will proceed to Missouri, Colorado, New Mexico, Arizona and Texas. The Campaign Committee idea was to have Speaker Clark visit those States in which he thought he could be of the most value. He has chosen, therefore, those localities which supported him at the Baltimore convention.

Representative Underwood will speak for the most part in the East, and probably will discuss chiefly the tariff. The Democratic House leader has informed Representative Burleson, of Texas, chairman of the speaker's bureau that he wishes to rest until the end of September, but will then begin active campaign work. He will make a number of speeches in New York State, New Jersey, Delaware, Connecticut and Massachusetts.

Gov. Harmon, of Ohio, will speak in the Middle West, and Gov. Foss, of Massachusetts, who is campaigning in Vermont now for the national ticket, will fill a number of engagements outside of New England as well according to present plans.

Distillery Slop Barrels.

Frankfort, Aug. 28.—War will be waged by the state fish and game commission on all distillers using the rivers as slop barrels for their distilleries. It is claimed by the commission that the slop is very injurious to the fish as it gets into their gills and stomachs and disease them. Several distilling plants have installed redryers, which dries out the pulp, which is then baked and sold, and the distillers will have to either install redryers or find some other means of getting rid of the slop.

The commission has about decided to ask the next general assembly to amend the law so as to permit fishermen to use a five-inch seine, which will hold the big fish and permit the little ones to escape.

Notice.

Beda Local No. 559 will meet in regular session Friday night Aug. 30. Members that have not signed the tobacco pool, are urged to be present and sign same.

TRIBUTE PAID WILLIAM BOOTH

Eulogies Upon Late Leader of Salvation Army

Thousands of Persons Visit Congress Hall To View Body.

London, Aug. 25.—Great crowds gathered outside of Congress Hall today, expecting to view the body of the late General William Booth, which for two days has been lying in state. The body, however, had been removed over night to the General's private room and the hall was used for the regular Salvation Army services.

The building was filled to its capacity of 2,000 persons at each of the three services. Of the floral tributes massed on the platform, those of Queen Mother Alexandra and Emperor William were the most notable. The British and foreign flags and the decorations on the walls of the hall had not been removed. Tributes were paid to the dead general in all the non-conformist pulpits and in most of the pulpits of the established church today. Eulogies also were read in the Catholic churches. In Nottingham, General Booth's birthplace, a special service was held in Wesleyan Chapel, which the Salvationist attended in his youth.

Belgrave Wood and Pastor Lake will officiate at the funeral ceremony in Olympia Hall.

Forty bands will play "Handel's Dead March in Saul," and to this accompaniment the body will be taken into the hall by a procession of Salvationists of all ranks and of both sexes, bearing the flags of the nations they represent. The flag unfurled by General Booth on Mount Calvary also will be displayed.

In Abney Park Cemetery the service will consist of prayers, addresses and songs. Miss Eva Booth, commander of the Army in the United States, will speak, and Bramwell Booth will read the commitment service.

One hundred and fifty thousand persons visited Congress Hall Friday and Saturday, the two days the body was lying in state.

Loophole in Whiskey Act.

Frankfort, Ky., Aug. 25.—Grief came to the hearts of the temperance people and a corresponding joy to the "bootleggers," when it was discovered today that the principal clause in the Prohibition act which had been left out, while being enrolled. The printed bill provided a heavy penalty for purchasing, procuring or delivering intoxicating liquors in local option territory.

Each place in the enrolled bill, except in the caption and the exemption of common carriers doing an interstate business, the word "delivery" was omitted. In the prohibitory clause the words "to deliver to another" were left out, practically invalidating the act.

Dr. N. A. Palmer, superintendent of the Anti-Saloon league in this state, said that the omission of the word "delivery" must have been intentional, and the temperance organization in the state will demand an investigation. Senator Frost will be notified and the copyist of the bill will be ascertained and the name given out to the public.

Notice to Growers of Green River District.

Calhoun, Ky., Aug. 26, 1912.—At the July District Convention A. S. of E. held in Fordsville, Ky., the following resolution was adopted: Viz, Whereas it is a fact unassailable that the man who produces an article is the only man who has the right to fix a price thereon; therefore, be it resolved that the following method be pursued in fixing the price on this year's crop of tobacco: That a call be issued by the District Chairman for a meeting of all farmers who have pooled their tobacco with the A. S. of E. and Home Warehouse Co., to meet in their respective school-houses on the

last Saturday in August and fix a price on the tobacco and elect one of their number to attend a county meeting of their county where an average of the school district prices shall be made, and one of these delegates elected to take the average price to a meeting to be held in Owensboro, Ky., where an average of the counties shall be found and said average shall be the price below which no committee shall have power to make a sale except subject to the ratification of the poolers.

In accord with the foregoing resolution we hereby call for all who have pooled with the A. S. of E. and Home Warehouse Co., to meet in their respective school-houses at one o'clock on Saturday Aug. 31, and set price on their tobacco as provided in the foregoing resolution, and further call for the delegates from these meetings convene at the several county seats at one o'clock on Monday September 2 and proceed to get an average price from reports from the school districts, and further that the delegates from the several counties meet in Owensboro on Thursday Sept. 5 and proceed to fix a price on the tobacco of the District as provided by the foregoing resolution.

Taft Gives Up Fight.

Springfield, Mass., Aug. 28.—President Taft in a speech from the rear platform of his private car here today, declared that he did not intend to make any further part in active politics. "I am not here to make a political speech," said the President. "I have given that up. I believe that there are some politics going, but I am not going to take part in them. So far as I am concerned, you will have to make up your minds without hearing me further. I am on a trip to my own State to celebrate one hundred years of political life, and I have something to say to the people of Ohio on that subject but not on politics."

PRODIGAL WITH COUNTRY'S COIN

Democratic Congress Spends More Than One Controlled By Republicans.

Washington, Aug. 28.—Congress closed another billion-dollar session today but the exact total of the Nation's "coast of living" varies as it is seen through Republican and Democratic eyes.

The total appropriations for the fiscal year 1913, which began July 1, 1912, amount to \$1,018,636,143.66 as given to the Senate and House today by Senator Warren and Representative Fitzgerald, respectively the chairmen of the two appropriation committees.

It is conceded by both of these leaders that this is \$7,046,000 less than the Nation's budget of 1912, but it remained for former Speaker Cannon, in behalf of the Republican forces of the House, to produce figures to show that the present Democratic Congress had actually appropriated more for general purposes than did the preceding Republican Congress.

Representative Cannon declared that out of the general total should be taken all expenditures made for the Panama Canal. With such deductions, he said the total appropriations for 1912 would be \$99,556,121, as compared with a total of \$91,122,881 appropriated for general purposes last year.

Predictions that the Government would face a heavy deficit at the end of the year were made both by Sen. Warren and Representative Cannon.

Senator Warren said President Taft and his cabinet had carefully reduced estimates to the lowest figures.

The appropriations actually made are more than \$21,000,000 less than the estimates and the Republican leaders declare it will be impossible for the existing Government agencies to keep with them.

TAFT WILL NOT STUMP COUNTRY

Will Fill Only a Few Im- portant Dates.

Says He Will Talk Politics Only If Delegations Call on Him.

Washington, Aug. 25.—President Taft's plans for leaving Washington were tonight as indefinite as those of Congress for adjournment. With the General Deficiency Bill still pending in both Houses it is impossible for him to get away although his friends know that the President is anxious to go north and enjoy the rest and seclusion of Beverly for a few weeks.

The President did not get to bed in the White House until early today and consequently missed his usual Sunday morning church service. He remained in the White House until late this afternoon and then took a long motor ride about Washington's suburbs.

His only caller during the day was Senator Crane of Massachusetts. He expressed the hope that Congress would solve its difficulties in time to permit his departure for Beverly tomorrow night.

If he finds it impossible to leave then he probably will not go north from Washington but will journey to Beverly by way of Columbus, Ohio, where he has an engagement Thursday. Even the Columbus engagement made many months ago, will be canceled if Congress remains in session until late Wednesday night and the President's vacation also will be postponed.

The President told friends who talked with him early today that he expected to keep only a few important engagements after leaving Washington. He made it clear that he does not intend to enter into a stumping campaign of any sort.

He believes that he has been misunderstood and has decided to make several political speeches before the election.

His friends were told that he would do practically no talking on political subjects unless Republican organizations visit him at Beverly or unless any of his engagements are turned into political gatherings.

A GRAND EDUCATIONAL PIC-NIC!

AT SHULTZTOWN SCHOOL HOUSE ON SATURDAY, SEPTEMBER 7

Dr. Fred Mutchler, of Bowling Green, State Normal Instructor, and Supt. Henry Leach, will deliver a series of interesting lectures on Education and Agriculture. Ozna Shultz and a number of other leading educators have promised their assistance. The Ohio County Board of Education, the faculties of the High Schools, every teacher and their friends and everybody interested in the cause of education, is invited to be with us and partake of the grand intellectual feast prepared for the occasion. A lunch will be prepared in the homes and served at the school house by the school patrons. Ice cream will be served in the school house by the young ladies, and refreshments served by the young men in the beautiful grove in front of the school building. The entire day from 9 a. m. to 5 p. m. will be used in alternate speech making and partaking of refreshments. The ice cream parlor and refreshment stands will close and you cannot purchase anything at any price while there is a speaker on the stand. Everything in our power will be done to make this one of the grandest intellectual feasts, and one of the hardest strokes ever hit in the cause of education in Ohio county. Are you with us? If so prove your faith by your works. Give us your presence and we will make this a day worth while to the cause it represents.

**Every Cent of the Proceeds Will Be Used to
Further the Cause of Education.**

HAPPY THO' MARRIED?

There are unhappy married lives, but a large percentage of these unhappy homes are due to the illness of the wife, mother or daughter. The feelings of nervousness, the befogged mind, the listlessness, the pale and wrinkled face, hollow and circled eyes, result most often from those disorders peculiar to women. For the woman to be happy and good-looking the must naturally have good health. Dragging-down feelings, hysteria, hot-flashes or constantly returning pains and aches—are too great a drain upon a woman's vitality and strength. Dr. Pierce's Favorite Prescription restores weak and sick women to sound health by regulating and correcting the local disorders which are generally responsible for the above distressing symptoms.

"I suffered greatly for a number of years and for the past three years was so bad that life was a misery to me," writes Mrs. B. F. Dickey, of Utica, Ohio, Route 4. "The doctors told me I would have to go to a hospital before I would ever be better. A year ago this winter and spring I was worse than ever before. At each period I suffered like one in torment. I am the mother of six children. I was so bad for five months that I knew something must be done, so I wrote to Dr. R. V. Pierce, telling him as nearly as I could how I suffered. He outlined a course of treatment which I followed to the letter. I took two bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery' and a fifty-cent bottle of 'Smart-Weed,' and have never suffered much since. I wish I could tell every suffering woman the world over what a boon Dr. Pierce's medicines are. There is no use wasting time and money doctoring with anything else or any one else."

The Medical Adviser by R. V. Pierce, M. D., Buffalo, N. Y., answers hosts of delicate questions about which every woman, single or married ought to know. Sent free on receipt of 31 stamps to pay for wrapping and mailing only.

"Cardui Cured Me"

For nearly ten years, at different times, Mrs. Mary Jinks of Treadway, Tenn., suffered with womanly troubles. She says: "At last, I took down and thought I would die. I could not sleep. I couldn't eat. I had pains all over. The doctors gave me up. I read that Cardui had helped so many, and I began to take it, and it cured me. Cardui saved my life! Now, I can do anything."

TAKE The CARDUI Woman's Tonic

If you are weak, tired, worn-out, or suffer from any of the pains peculiar to weak women, such as headache, backache, dragging-down feelings, pains in arm, side, hip or limbs, and other symptoms of womanly trouble, you should try Cardui, the woman's tonic. Prepared from perfectly harmless, vegetable ingredients, Cardui is the best remedy for you to use, as it can do you nothing but good. It contains no dangerous drugs. It has no bad after-effects. Ask your druggist. He sells and recommends Cardui.

GREATEST IN HISTORY.

Tenth Annual State Fair, Sept. 9-14, Will Mark an Epoch.

With the greatest array of exhibits in live stock as well as of all other products of which the state is famous already guaranteed for the Kentucky State Fair this year, it is the prediction of those in charge of the arrangements that the exhibition to be held the week of Sept. 9-14, inclusive, will be the biggest and best ever seen in the south or middle west and that it will mark an epoch in the history of agricultural and live stock exhibitions. Not since the Kentucky State Fair was inaugurated ten years ago has the same amount of interest been shown in the event as that being taken this year by the officials and the public spirited citizens of the state, insuring the greatest Fair, from an artistic and display standpoint at least, in the history of the association.

One of the most important improvements will be that of the enlarged grand stand, which, when completed the latter part of August, will be twice the size of the stand that has been used to accommodate the crowds the past four years. The new addition to the stand will be of the same concrete construction as the part now standing, and when completed the stand will have a seating capacity of 5,000 people.

Martyrdom of the Bride.
A peculiar and barbaric marriage custom of the Kabyle women of Africa consists in the martyrdom of the bride, who, clad in her wedding finery, stands through an entire morning against a pillar in the village square, her eyes closed, her arms pressed to her sides and with only the narrow base of the column for a foothold, while a ring of villagers criticize and comment on her appearance.—Argonaut.

JUDGING CONTEST BY FARMER BOYS.

This Will Be a State Fair Feature
Week of Sept. 9-14.

With a view of further encouragement to the farmer boys of Kentucky to gain a scientific knowledge of agriculture the State Fair management has again this year made arrangements for a renewal of the students' judging contest, which has proved so popular in the past, and a scholarship in the agricultural college of the State university, carrying with it \$100 in cash, will be offered for the best judge of several classes. The contest will consist of rings for horses, cattle, sheep and swine exhibited at the State Fair, and written statements are to be presented by each contestant setting forth his reasons for the decisions reached by him.

The contest this year will be under the personal supervision of Professor J. J. Hooper, professor of animal husbandry of the Kentucky State university, at Lexington, and it is his purpose to devote much of his time from now until the date of the Fair in working up interest among the farmer boys of the state in the event. Inasmuch as the farmer boys of Kentucky are proud of their ability to correctly judge a horse or other farm animal, much interest is always manifested in this contest, and as many applications for entry blanks have been received by Secretary Dent this year it is expected that keen rivalry will exist among several hundred young men and boys the week of the Fair, Sept. 9-14. Any boy who wishes to enter the contest can secure an application blank by applying to J. L. Dent, secretary of the State Fair, room 320 Paul Jones building, Louisville, and all information relative to the contest will be forwarded to the applicant with the entry blank.

MIDWAY ATTRACTIONS.

To Be Featured at State Fair, Week of Sept. 9-14.

The Midway attractions to be featured at the State Fair this year will be far and above the average, as it is the purpose of the management to provide only the best for the patrons of the Kentucky institution. In order to carry out such an arrangement Secretary J. L. Dent will visit the shows two weeks before the date of the Kentucky State Fair, which is the week of Sept. 9-14, and make a personal inspection with a view of eliminating any and all unattractive or freak features. The shows engaged for the Fair are the Mazzeppo and United Shows combined, and this name in itself is sufficient to guarantee a high class and clean line of attractions, but to make it doubly sure Secretary Dent has planned the personal inspection to satisfy himself. It is the purpose of the management to provide such a line of sideshows that parents can let their children visit the shows day and night without the attendance of older members of the family.

In order to further carry out this feature of the program the management has contracted with a number of well known Kentuckians to be stationed both on the inside and outside of each of the Midway attractions during the week to look after the welfare of the patrons and to see that nothing is said or done that would in the least offend the eye or ear of any person within the inclosure.

BAD FOR THE STOMACH.

When Non-fatty Foods Are Intimately Mixed With Grease.

The stomach never has the least power of digesting true fat. This is disposed of in the intestines. When eaten in the ordinary forms, as fat meat, butter, etc., the fat separates out in the stomach and does not in the least interfere with the work of the gastric juice on the other food, but when a non-fatty food has been intimately mixed with grease the latter prevents the gastric juice getting at the food it could digest.

Fish fried in oil or butter is by no means the most marked example, as the fat does not penetrate very deeply. Potatoes mashed with butter are rather worse, and minced vegetables fried with butter are bad offenders. The reason advanced explains why pork is difficult of digestion. The muscular fibers are mixed up with fat cells, and by the liberation of the oil in each tiny cell the eaten pork is made into an oily paste.

A very strong stomach will do the work required, but it is not a fair task to impose frequently, and a weak stomach will refuse to do anything beyond reminding its owner by a few stabs that it will not stand such treatment.—Exchange.

Gymnasium Training.

Every person who has received gymnasium training is aware of the fact that an exercise which calls for painful effort on the part of the beginner is often performed almost without any conscious effort at all after a certain amount of training has been received. Again, it is perfectly well known that brute strength alone does not make a gymnast and that even a simple exercise may offer great difficulty to a muscular and well developed individual who has not been trained in the gymnasium. The explanation for this is made in an article by Professor DuBois Raymond in Die Umschau, who points out that one of the essential functions of gymnasium work is not so much to build up muscle as to train nerves and nerve groups to work in proper unison and co-ordination.

Shoot to Hit

The Remington Cube hang up a new shooting record

More—Their Use Guarantees the Life—the Continued Accuracy of your Arm.

96 years of gun-making—50 years of cartridge-making have taught us—

To make cartridges noted for straight shooting—hard-hitting—sure-fire. To attain ammunition accuracy without impairing gun accuracy. To make for each kind of arm the cartridge it requires to shoot its best—and to keep shooting its best.

There is a Remington-UMC cartridge specially made for your rifle—your pistol. Every Remington-UMC cartridge is tested in the arm for which it is made. Our Guarantee is behind these cartridges—and behind any standard arm, to the full extent of the maker's own guarantee, when these cartridges are used. Shoot the cartridges that shoot straight. Shoot the cartridges that keep your gun shooting straight. Shoot Remington-UMC cartridges.

FRIDAY, AUGUST 30.

PROGRESSIVE TICKET.

For President,
THEODORE ROOSEVELT.
For Vice President,
GOV. HIRAM JOHNSON.

And Archbold left the next day for Europe.

Americans have no time for a man who slanders another and then runs away.

Taft has announced that he will make no campaign speeches. Well, what is the use?

Who will argue that the judges who have resigned under fire, should not have been recalled?

Some persons seem to think an occasional resignation will answer all the purposes of the recall.

As we go along don't forget that the Democrats are responsible for the police force of New York City.

The utterances of Woodrow Wilson have become so mild that his friends wouldn't know them unless labeled.

Col. Bryan contributes \$1,000 to the Wilson campaign fund. This does not look much like the simplicity of 1896.

The Kentucky Republicans have read all the Bull Moose out of the party, and now they have to borrow elections officers.

A wrong door pursued by the New York police, throw one dollar bills over his shoulder but the police did not stop. The bills were too small.

Anyway the Standard Oil Company seems to be against Roosevelt in this campaign. This is a compliment not yet paid to Taft or Wilson.

Taft has gone back to Beverly and the golf links, and is willing to let others worry about the problems confronting the "dear people".

Whenever the Republican party in Ohio county gets so weak as to require the sympathy of the Hartford Herald it is time to draw the curtain.

That third term proposition don't seem to bother the people much. What they want to know is whether the bosses are willing for them to have a voice in any term.

Why not talk about that \$25,000 contributed by Belmont to the Democratic campaign fund in 1901. Mr. Parker was temporary chairman of the Baltimore convention.

Woodrow Wilson may be good in his Greek, Latin and higher mathematics but that fact will not prevent the hard times, under low wages, sure to come if he is elected President.

The Progressive platform endorses the initiative and referendum, which means more voice for the people in their government. All who are opposed to this, stand up or raise your hand.

The farmer who accepts the free trade idea under the contention that he is not benefited by a protective tariff anyway, and votes away his market to Canada and other foreign countries, will be in the same condition as the calf which left its mother to follow the steer, at supper time.

Editor Waterson, who has admitted that he tried to arrange to have Thos. F. Ryan finance the pre-convention campaign of Gov. Woodrow Wilson, is writing daily editorials in the Courier-Journal in vile abuse of Theodore Roosevelt, because Archbold says the Standard Oil Co., contributed \$10,000 to the Republican campaign fund in 1901. His sayings not only sound like an old man in his dotage but also like one in his cups.

The Bull Moose must be affirming certain Democratic politicians in Ohio county, who had been looking forward to the county offices next year because of the Republican split. The split seems to be too one-sided for them. Hence the ludicrous attitude of some of the leaders in trying to play wet nurse to their opi-

umery, the champion, in his present sick and weak condition. Men who stand for Progressive principles and honesty in political conventions are not to be fooled by this move.

A little more than six months of Democratic rule in Kentucky has brought the State to bankruptcy, and it is reported that the Legislature is to convene in extra session to raise the tax rate to provide for the salaries of new officers, increase in others and to pay pensions to Confederate soldiers provided for by the last session. It is evident the McCrory administration is to repeat history and corroborate everything predicted for it during the campaign just fall. One prediction which has come true is the reduction of the school per capita twenty-five cents from last year.

The Hartford Herald is very much concerned about the Secretary of the Republican County Committee at present. It is worried because he signs some documents and does not sign others. The Herald editor is advised to possess himself as much as his nature will permit, under the stress of circumstances, with our assurance that all will come out in the wash in a few days, and should he need further explanation about our personal affairs, or those connected with Ohio County Republican or Progressive Committees, we will lead him out behind the barn and inform him to our utmost ability.

Just think of it. The Hartford Herald advises the "regular" Republicans about a scheme of the Progressives to swallow them up, in Ohio county. When did the Herald get to be guardian for Republicans in Ohio county? It pretends to have discovered a plan upon the part of the Progressive party to get help from Republicans to carry the County for Roosevelt this fall and then all get together on a county ticket next year. This is what it fears most of all. The Republican who takes advice from the Herald needs a guardian had enough. It closes its advice with the wag, "The main idea of the Roosevelt forces is to gain control of the party machinery in County, State and Nation and accomplishing this, it would be good-bye to regular Republicanism forever." Boo! boo! Look at the tear stains on the Herald editor's face, all because "regular Republicanism" is to disappear "forever."

What Would They Buy With.

Under a Tariff for revenue only, many goods could be bought at lower prices than are now paid under a Protective Tariff. That is the purpose of a Tariff for revenue only—to make things cheaper, including the price of labor. Granted, then, that things could be bought cheaper; but what would they be bought with? Remember, please, that these things that are going to be bought cheaper are things made by foreign labor, and that they are going to take the place of things that are made by American labor. In that case American labor is idle, unemployed, displaced by the products of foreign labor. In that case American workmen have nothing to buy with. They can buy neither the products of foreign factories nor the products of American farms. Do American laborers like that prospect? Do American farmers like it? If they do they should vote for Free-Trade Wilson and a Free-Trade Congress. Otherwise not.

Would Close the Woolen Mills.

Prof. Wilson attempted to hedge in his sweeping assault on Protection at Sea Girt, last week, by saying he was not in favor of any Tariff reductions which would hurt business. Immediately thereafter he announced that he was heartily in favor of the Wool bill.

Had this bill become a law, it would have resulted in the closing of every woolen mill in the country. The hedge-podge prepared by La Follette and Underwood must necessarily have caused a reduction in wages, and the wool workers would look for other employment rather than accept less pay.

Prof. Wilson stands committed to Free Trade, and it is up to the wage earners to protect themselves and their families by voting against him at the coming election. Any other course means reduction of Tariff, which means reduction of wages.

T. R. Forces Gaining Strength.

Columbia, Ky., Aug. 26.—The Progressive party, although largely in the majority now, is gaining ground every day in Adair County, and by the November election it is doubtful if the Taft followers can muster up a sufficient number of men throughout the county to make up his pro rata of election officers. The hard fight will be next year in the county races. There are many Progressives in Adair County who will make efficient officials, but the following are more prominently spoken of as candidates: Julius Hancock, County Judge; G. P. Smythe, County Attorney; G. E. Wilson, County Clerk; J. T. Barbee, Jr., Jailor; Miss Pearl Hindman, Superintendent of Schools; Jo. Nat. Connor, Assessor; J. N. Coffey, Surveyor; T. C. Davidson, Sheriff; Dr. C. M. Russell, Coroner.

BULL MOOSE MEETING EXPENSES IS SMALL

Statement Shows They Cost Less
Than Any Other Con-
vention.

Chicago, Aug. 27.—LaVerne W. Noyes, treasurer of the Progressive Convention, Arrangement Committee, has made public a statement of receipts and disbursements for the recent Progressive National Convention in August, showing that the total expense of the convention was \$19,903.

In submitting his report of the convention finances, Mr. Noyes said: "The first national convention of the Progressive party was conducted at less cost to the people than probably any convention of the Republican or Democratic parties for years."

"National conventions have been growing more expensive. The members of the Arrangements Committee felt, as Progressives, it was more in keeping with the policy of this movement to avoid all unnecessary expense and to finance the convention by popular subscription."

The balance sheet shows the following receipts:
From individuals\$2,000.00
From Chicago hotels 3,500.00
From ticket sale 13,362.55
From programs 1,250.00

Total\$19,903.11
As the total expenses for ball, music, offices and arrangements amounted to \$19,903.11, the committee has a balance of \$474.63 on hand.

They are experienced gentlemen in the dry goods business and will no doubt enjoy a good trade here.

The meeting at Mt. Hermon conducted by Revs. Joiner and Crowe closed last Sunday night. It was a general revival among Christians and greatly enjoyed. Rev. J. W. Crowe did the preaching, which was strong and unctious. He is a fine preacher and revivalist. There were 22 professions and 8 additions to the church and more to follow.

Black & Birkhead will hold their annual coat show at the Woodmen picnic at the Hartford fair grounds on Sat. Sept. 14. Free admission to the grounds. Dr. C. Ross Bennett, who has been taking his third year's work in a medical college in Chicago, arrived home Saturday afternoon for a short vacation. He will return this fall to complete his work.

Hartford College will begin its thirty-third year work on September 16, when school will be opened. Owing to the destruction of the school building it has been necessary to rent rooms in the business part of town to hold the school. The High School department will be held in the Fraternity lodge hall, while the second floor of Heavrin and Baras's building over Barnard & Company's store will be occupied by another department. More rooms are yet needed and several places are being investigated and announcement made later. The faculty and Board of Education have been to much trouble in getting arrangements made for the school this year, and we are glad they have everything in such splendid shape for a successful school.

MANY POISONED BY ICE CREAM

Fifty People in Serious Condition at Nortonville Saturday Night.

The Madisonville Hustler says: Potomac poison, caused by eating ice cream at a social given by the ladies of the Methodist church at Nortonville Saturday came near causing the death of a number of citizens of that place and many others were in a critical condition for a number of hours.

An ice cream supper had been extremely advertised by the ladies of the Methodist church there to be given in the grove near the church Saturday night, the proceeds to be used on the church. A large crowd was in attendance many coming from the surrounding country.

A large quantity of cream was ordered from Henderson, and the ladies, fearing that this would not be enough, made several gallons. The cream made at home, it is thought, caused the poisoning. About fifty of those who ate the cream became deathly sick during the latter part of the night, and Drs. Moore and Howell had their hands full, and it was only by hard work that the lives of a number were saved.

Many were confined to their beds all day Sunday, but yesterday afternoon all were out of danger and no deaths, it was stated, would result from the poisoning.

Negro, 101. Is "Still Young."

Hickman, Ky., Aug. 28.—Uncle Levi Canvett, by far the oldest citizen of this part of the State is now in his one hundred and first year, and one of the few real old-time negroes left here. The oldest residents of the city have known Uncle Levi all their lives, as he has lived in this town nearly all of his life. Uncle Levi also has a record that very few negroes have—having never been arrested or had to answer for any charge. When asked how old he was, Uncle Levi said he was "still young" and to give evidence of the fact, jumped up and knocked his heels together.

As Life's Game is Played.

"Human Nature" is a handy scapegoat for all our faults. Forgery: a crooked path with a steel pen at each end. When women vote with it be necessary to change the style of ballot pouch election? Individuality in a man leads to success; in a woman, to being talked about. Money talks—which is one way of saying that the wheel of fortune is full of spokes.

THERE IS ONE GOD AND ONE MEDIATOR

The World Needs a Mediator,
Church Needs Advocate.

Pastor Russell Addressed Two Large Audiences in Stockholm Yesterday. Left to Fill Lecture Appointment in Copenhagen, Brussels and London.

Stockholm, August 25.—Pastor Russell of London Tabernacle addressed two large congregations here in Swedish and left for Copenhagen, Kiel, Brussels and London. We report one of his addresses from 1 Timothy II, 5, 6: "There is one God, and one Mediator between God and man, the Man Christ Jesus, who gave Himself a Ransom for all, to be testified in due time."

Many wonder why God does not forgive sin freely without requiring the death of Christ as a basis for reconciliation. We are to forgive those who trespass against us, because we do not occupy the place of Creator and Judge towards our fellows, and because we ourselves are sinners like others. For the Creator to forgive sin and remit its penalty unconditionally would be to admit either that the Law and penalty were too severe or that man was imperfect in his creation and unable to keep a perfect law.

Justice Cannot Admit Either Premise. Divine Justice cannot admit either premise. Man was created "very good;" and the Law was reasonable, and the penalty just. For God to have overridden the justice of His own decree would have opened the door for transgressions on the part of angels, for each creature might justly claim the privilege of sin and forgiveness. This would vitiate justice. Instead, God manifested His love by providing a satisfaction for man's sin, a substitute under the penalty—Jesus.

The Logos was made flesh, and died willingly; "for the joy that was set before Him He endured the cross." The joy included the work mentioned in our text and also His own exaltation to the right hand of Divine Majesty. Thus the Man Christ Jesus laid down an unforgotten human life and received the divine nature and glory far above angels. The human life laid down is to be "a ransom for all, to be testified in due time." (1 Timothy II, 6.) But that due time has not yet come nor has that sacrifice been appropriated for mankind. Hence "the sin of the world" is not yet taken away, although as the Mediator, Jesus has laid the price of human redemption in the hands of Divine Justice.

Jesus awaits the gathering of the Church, over whom He is Head. He, with the Church, His Body, will constitute the great Mediator, who will inaugurate the New Covenant, after completing His "better sacrifices." (Hebrews ix, 23.) The first of these was His own flesh; the remainder is the flesh of His Church; thus He said to Saul of Tarsus, "I am Jesus whom thou persecutest." See also Ephesians v, 30-32.

When the foreordained number of His members shall have passed to Him beyond the veil, then the great Mediator will be completed. Then blood atonement will be applied on behalf of the world, and Divine Justice will accept that ransom-price. Thereafter the world will be free from the death sentence. Forthwith Christ will establish His Kingdom for restoring all that was lost in Adam.

No longer will it be true that the world lies in the Wicked One; thenceforth the world will be under Messiah's Kingdom. Satan will be bound. The knowledge of the Lord will fill the earth, and every creature will have opportunity of return to the Father's House. The wilfully disobedient will be destroyed in the Second Death.

"We Have an Advocate."

It will be observed that the Church is separate and distinct from the world and developed as the Body of the Mediator. The Church is called to become partaker of her Redeemer's sufferings and His divine nature. She was, by nature, "children of wrath even as others," hence needs Divine mercy also.

The invitation of this Age is to suffer with Christ, to sacrifice earthly interests and hopes, to be dead to the world with Him, and thus to be made sharers with Him in His heavenly glory and Kingdom.

But none is worthy to offer sacrifice nor could God accept imperfect sacrifices; hence the Divine provision is that we present our bodies to the High Priest for sacrifice. He then becomes our Advocate, and, in harmony with the Divine will, accepts us as "His flesh" and sacrifices us as such, imputing to us of His own merit to cover our blemishes. Thus the Church is "accepted in the Beloved." Thus suffering with Him as His members, we receive also a share with Him in His reward as members of the Body of Messiah, the Mediator, Prophet, Priest and King, through whom God's blessings are soon to be dispensed to the entire groaning creation, under the terms of the New Covenant. An appreciation of the Divine arrangement helps us greatly to estimate our privilege of suffering with Him, that we may also reign with Him.

THE HARTFORD REPUBLICAN

Hogwallow News.

The Tickville Tiding failed to get out a paper this week, this incident having been overlooked in the excitement which followed the bringing in of a page ad by a local merchant.

On last Friday night Sam Plinders saw a star fall in the vicinity of the Wild Onion school house, and has left for that place in his wagon. He expects to return with it to-night.

The deputy constable brings the news that they are going to get Taft know he is nominated on August 1st. The result was in all of the papers the day it came off and Sam Plinders says he bets Taft has heard of it before now.

Sidney Hooks has bought a suit of clothes and has got his hair cut in an effort to elude the deputy constable. This completely disguises Sidney.

In an attempt to end his life yesterday, a relative of Bat Smith, living in the Cliff Hills neighborhood put on his overcoat and heavy pants.

The tin peddler visited this section again this week, and brought with him a thermometer, the first that has been seen in this section. It attracted a good deal of attention and was put in advertising.

Everybody looks into an old cistern.

Dry weather has been prevailing in this section for several weeks. It is believed that a few good soaking rains would do away with this drought.

The proprietor of the moonshine has put a bed on a tall post near by, for the use of his patrons who are wanting a drink while he happens to be absent, and the public is requested to let his wants be known by ringing this bell. The old bed that stands on another post near by has no cupper and can be used by those who do not want a drink.

The singing held at the Dog Hill church last Third Sunday was not so very well attended, as it had become generally known who was going to sing. Sidney Hooks was the only one seriously affected by the music, it having caused his mate to break loose.

Hartford Druggist Deserves Praise.

The Ohio County Drug Co., deserves praise from Hartford people for introducing here the simple backhorne and glycerine mixture, known as Aftersilk. This simple German remedy first became famous by curing appendicitis and it has now been discovered that A SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY. It is the only remedy which never fails.

HOUSEHOLD HELPS

SUGARING DOUGHNUTS.

When you wish to sugar doughnuts, cut several in a paper bag and shake it well for a minute.

HOW TO PROTECT FLOORS.

Glue pieces of felt or pieces of old rubber to the bottom of the chair legs, and there will be no scratched floors and less noise.

DRY IN THE SHADE.

When washing white worsted garments do not dry in the sun, for this will turn them yellow. Dry in the shade or in the house.

PEACH SHORT CAKE.

Prepare a rich pie crust and roll thick. Spread in a long, flat pan to bake a light brown, and quite crisp. Spread with butter while still hot and sprinkle liberally with sugar. Have ripe peaches, sliced and well sugared. Pile upon the crust and serve with whipped cream.

LEMON ICE.

Put in a vessel half a pound of powdered sugar, with a quart of cold water; grate in the rind of a large lemon, or of two small ones, squeezing in the juice of three lemons or four small ones, and with the spinach beat together for five minutes. Freeze (it may require a little more sugar); strain into the freezer and process exactly as for ice cream.

TO REMOVE SPLINTERS.

When a splinter has been driven deep into the hand, it may be extracted, it is said, by means of steaming. Nearly fill a wide-mouth bottle with hot water. Place the injured part over the mouth of the bottle and press tightly. The suction will draw the splinter down into the neck of the bottle and in a short time the steam will extract the splinter and the inflammation together.

PROMINENT ENGINEER

On I. C. Road Is An Ohio

Interesting Story of How Will
Curley Saw First
Train.

The Louisville Times last Saturday

said:
It is just as hard to photograph William B. Curley as it is to saddle a bucking bronco, and this is the reason his very intimate friends call him "Wild Bill," but you had better be sure you are privileged before you attempt this familiarity, or you are liable to be "calped" for it. This statement is made to explain the seeming stiffness of the pose in the picture herewith presented. Mr. Curley being camera shy it was necessary to "take" him by subterfuge, so he was inveigled into standing up against a wall under the supposition that he was to be measured for stature. Before he had time to "duck" he was snapped by The Times photographer, and thus is an eager public given opportunity to gaze upon his "countersuit presentment." Mr. Curley is one of the best known and best engineers of the Illinois Central, Louisville division. He was born and "raised" in Ohio county, Ky., in the vicinity of Curley's Curve, named for his family. This place is on his "run" to Paducah, and he gets frequent glimpses of his boyhood haunts as he flashes by on his engine.

He is a fearless driver, and yet, in the beginning he was just as shy of a locomotive as he still is of a camera. Apropos of this his friends tell the following story on him.

At the time the old E. & P. road was built he was a simple country lad, working on his father's farm from sun to sun, with no other ambition than to till the soil. The road passed close to the old home place, and the opening of it was a big event to the people all along the line.

At that time Bill, so the story goes, had a sweetheart called Sal, who was just as rustic as her beau. Of course, Bill had to take Sal to see the first train go by. He hitched up a mule to the hay rake, the closest thing on the place to a buggy, and started to a point where they could see the "iron horse" speed by. Arriving at the point of vantage, Bill unhooked the mule, and tied him to a nearby tree, then rejoined Sal on the seat of the hay rake to wait for the train. After a while Sal, who had become fatigued, said:

"Bill, I think you'd better pull this 'ar rig away, for I'm kind o' scared that that pesky engine might jump off'n the track and run into us."

Of course, Bill gallantly acquiesced in the request, being also a little timid about the thing himself so getting into the shafts of the rake, he proceeded to pull Sal to a place of safety. Just then the train came speeding around the curve and the engine emitted a scream which so scared Bill that he ran away like a sure-enough mule, turned over the rake and dumped Sal so that she broke her leg.

Whether this is fact or fiction is hard to say, since Bill will neither affirm nor deny when it is told on him, which is frequently the "joke" and proceeds to tell one on another prominent engineer running out of Louisville. This engineer was a boy comrade of Bill's in Ohio county, and after the railroad was built was induced to take a job fitting.

One afternoon after the train had climbed Curley's curve, which is up a steep grade, the engineer missed his fireman and backed down, fearful of finding his mangled remains on the track. At length the train reached the old home of the missing fireman, and a stop was made to communicate the sad tidings of the supposed accident. Then the engineer learned that Jim—that was the fireman's given name—had "come home." Sure enough he was found in the "hay," and being rounded up explained that as the train crawled up Curley's curve a feeling of homesickness came over him that he could not resist and he stepped off the engine and went back to the old place. "I felt I couldn't get along without my cornbread and 'lasses," he said in fuller explanation. He was, however, induced to resume his place on the engine for the trip. He stuck, and is now one of the most valued engineers on the entire division.

As for William B. Curley, the subject of this sketch, he has survived the many changes since he began with the road in 1878, when it was the P. & E. (Paducah and Elizabethtown), a reversal of the original E. & P. (Elizabethtown and Paducah). Later it became a part of the Hamilton system, the Newport News, Mississippi Valley and Southwestern, and still later

was taken over by the Illinois Central. Mr. Curley is popular and prominent in the Brotherhood of Locomotive Engineers, and continuously since 1888 has served the local division as secretary and treasurer.

Organize at Lexington.

Lexington, Ky., Aug. 21.—The Fayette County Progressive Committee met here today and organized for the campaign by electing L. A. Ruckeno, a well-known farming implement dealer, chairman and B. F. Norment secretary and treasurer. Former Postmaster J. L. Earlywine, of Paris, was recommended for chairman of the Seventh Congressional District Committee, which will meet here August 31 for organization.

Col. R. C. Morgan, the well-known ex-Confederate of this city, who is a brother-in-law of Gen. Basil Duke, of Louisville, was introduced as the Progressive candidate for Congress in opposition to Congressman J. Campbell Cantrell, and his name will be presented at the district meeting here next Saturday for final action.

Provisions were made for opening headquarters with the view of prosecuting an aggressive campaign for Roosevelt and Johnson in this city and county. Speeches endorsing the members of the committee were made by Henry T. Duncan, Thomas L. Walker, former Republican county chairman, Charles H. Berryman and Revenue Agent M. P. Bohorn.

Free Trip to Farmer Boys.

James L. Dent, secretary of the Kentucky State Fair, has written asking that boys from Ohio county enter the Farmer Boys' contest for the best essays on the subject, "Our Home Farm." Only boys between the ages of fifteen and eighteen are eligible. There will be 120 boys from all over the state who will have their expenses paid for a week at the fair and their railway fare from home and return. The week at the fair, which is held at Louisville from Sept. 24th, to 30th, will include lessons in agriculture and the boys will all camp together, making it a rare outing for those who write the successful essays. Application should be made at once to the county school superintendent, Henry Leach for rules governing the contest, in order that the essays may be submitted in plenty of time before the opening of the fair.

MILLIONS ACQUIRED BY AN OLD MINER

Are Bequeathed to Joe Harris, a
Knoxville Auctioneer, Prov-
ed a Friend in Need.

Knoxville, Tenn., Aug. 24.—Joe Harris, 66 years old, now poor, but years ago a prosperous auctioneer of this city, was given good cause yesterday to remember that 21 years ago, on a cold winter's morning he had befriended a poor stranger in the city, a man of 28, just over from Scotland, whose sweetheart had died, by giving the shivering tramp his breakfast and employment.

Yesterday morning Colonel Cary E. Spence, Knoxville's postmaster, read to Harris a letter which stated that William Robinson had died in Brisbane, Australia, leaving his fortune of \$2,000,000 to Joe Harris, his benefactor, who had staked him on a trip to Alaska, where he had struck it rich in the gold fields near Cape Nome.

The letter was written by A. D. Smythe, from the Navarre hotel, New York city, Smythe stating that he had just landed in that port from Brisbane, enroute to England. He had learned of the will, and wrote his letter to Postmaster Wills of Nashville, who forwarded it to Colonel Spence. The will mentioned Harris as having been a member of the Tennessee general assembly in 1888.

Five years after Harris had staked Robinson a letter came through from Cape Nome, Alaska, enclosing \$500, and stating that Robinson, the writer, had struck it rich. As this \$500 more than repaid Harris for his kindness and stake, he was not surprised that he did not again hear from the young Scotchman, but Colonel Spence had to read the letter yesterday several times to the excited old auctioneer, who could scarcely believe its contents.

What Educated Boys Should Know.

In these days of get-rich-quick, or get-money-at-any-price craze some of the fundamental principles of many's honor and upright conduct, which should underlie every young man's education, are apt to be forgotten. There are great moral truths, there are good habits that no university incubates. Without them no young man's education is complete. Here are some of the things which the sons of rich fathers or the poor boy envious of his wealthy chum should know.

He should know that a dollar earned is worth \$100 inherited.

He should know how to make a fire and carry coal.

He should know how to be firm without being stubborn.

He should know how to brush his clothes, black his shoes and keep every belonging in order.

He should know how to supply the means to have a good dinner.

He should know how to dress in taste, so as to avoid looking like a

Important Notice to Subscribers.

The Republican has received notice from the Third Assistant Postmaster General calling our attention to the postal regulations in regard to subscriptions, in effect that no papers can be sent through the mail as second-class matter to subscribers who are more than one year in arrears.

This means that we must collect the subscriptions or discontinue the paper.

It is not a question of whether we are willing to extend credit to our subscribers or not.

We must comply with the postal regulations, therefore can not extend subscribers credit for more than one year no matter what their financial standing may be.

Statements are being sent to all subscribers one year or more in arrears and we hope they will make prompt remittance.

Unless this is done we must take their names off our list.

Stopping the papers does not in any way release the subscribers from responsibility of back dues, therefore, if you do not want us to continue sending you The Republican remit what is already due and we will stop the paper.
